

TIM'S LAW – JUNE 15, 2016

ASSISTED OUTPATIENT TREATMENT (AOT) IS A WAY OUT OF THE REVOLVING DOOR

Faye Morton with her son Tim, in their home in 1976.

Tim Morton was hospitalized by petition 37 times! He never had

the awareness that he had both mental and physical illnesses that needed to be treated. Then, it was too late. Tim died of natural causes on March 27, 2014 at the age of 56.

“TIM’S LAW WOULD HELP THE YOUNG PEOPLE WHO ARE DIAGNOSED WITH SERIOUS BRAIN DISEASES TODAY RECEIVE THE TREATMENT THAT COULD SAVE THEIR LIVES AND GIVE THEM A QUALITY OF LIFE THAT WE HAD ONLY IMAGINED BEING POSSIBLE FOR OUR SON TIM.”

FAYE MORTON, NAMI LEXINGTON
